

I was facing severe pain especially in walking and while sitting in both of my knees. I was facing this problem since year 2004. I consulted the same with so many orthopaedicians and all had suggested me to undergo knee transplant as my knees were almost deteriorated.

Accordingly, I started to search for a good Doctor who can do the surgery so that I could stand and walk again. During my search on net as well as conversation with in my <sup>son's</sup> office group,

I came to know about Dr. Rajeev K. Sharma as the same Doc. had done surgery of ~~my~~ <sup>his</sup> colleague's mother. Here it is pertinent to mention that Mr. Dinesh Sharma is <sup>his</sup> colleague in NTPC and he is very satisfied with the recovery of his mother. He had got this surgery when Dr. Sharma was in Apollo Hospital.

After talking to Sri Dinesh Sharma, I decided to get TKR from Dr. Sharma. I found Dr. Sharma as a very cheerful personality. Moreover, care during my indoor stay was commendable. I wish all the best to the Doctors and Staff of Vimhans PrimaMed.
